-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 03 November 2003.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.

Art Unit 1711

All remaining rejections and/or objections follow.

Claim 1 contains the misspelling "alkali methylalkyl sulfate salts". Correction is requested.

Claim 5 is rejected under 35 U.S.C. § 112, first paragraph, as containing subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The specification as filed does not disclose that applicants' particle diameters are number average. The limitation of number average is therefore new matter.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. § 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

The following is a quotation of 35 U.S.C. § 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject

Art Unit 1711

matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1-8 and 10 are rejected under 35 U.S.C. § 102(b) as being anticipated by American Cyanamide Co. (GB 994924).

See the Office action of Paper No. 5 at the paragraph bridging pages 3 and 4 et seq.

Claims 1-8 and 10 are rejected under 35 U.S.C. § 103(a) as being unpatentable over Lin et al. (USP 5,795,936) in view of American Cyanamide, cited above.

See the Office action of Paper No. 5 of page 4 line 11 et seq.]

Applicants' arguments filed 11-03 have been fully considered but they are not deemed to be persuasive.

Applicants argue that the instant claims distinguish over American Cyanamide by use of the specific emulsifiers recited by claim 1. However note page 3 line 51 of American Cyanamide disclosing such emulsifiers. With regard to the use of bulk polymerization, as set out in the previous Office action, American Cyanamide discloses bulk polymerization of MSAN in Examples 13, 14 and 15 in this regard.

Art Unit 1711

With regard to Lin et al., applicants argue that Lin et al. does not consider the problems caused by remaining emulsifier and do not teach or contemplate forming a thermoplastic resin with moisture and heat resistance. However for a rejection under 35 U.S.C. § 103 to be proper, it is not necessary that a reference be concerned but with the same problems as that of an application nor is it necessary that reasons for modifying the teaching of a reference include those of applicants. Applicants argue unexpected results. However applicants have presented no data comparative to the closest prior art in which the difference between the comparative example (according to the closest prior art) is presented in comparison with the example in which the only difference is that the use of applicants' specific emulsifier such as would prove applicants' allegations of unexpected results.

THIS ACTION IS MADE FINAL. Applicants are reminded of the extension of time policy as set forth in 37 C.F.R. § 1.136(a). The practice of automatically extending the shortened statutory period an additional month upon the filing of a timely first response to a final rejection has been discontinued by the Office. See 1021 TMOG 35.

Art Unit 1711

A SHORTENED STATUTORY PERIOD FOR RESPONSE TO THIS FINAL ACTION IS SET TO EXPIRE THREE MONTHS FROM THE DATE OF THIS ACTION. IN THE EVENT A FIRST RESPONSE IS FILED WITHIN TWO MONTHS OF THE MAILING DATE OF THIS FINAL ACTION AND THE ADVISORY ACTION IS NOT MAILED UNTIL AFTER THE END OF THE THREE-MONTH SHORTENED STATUTORY PERIOD, THEN THE SHORTENED STATUTORY PERIOD WILL EXPIRE ON THE DATE THE ADVISORY ACTION IS MAILED, AND ANY EXTENSION FEE PURSUANT TO 37 C.F.R. § 1.136(a) WILL BE CALCULATED FROM THE MAILING DATE OF THE ADVISORY ACTION. IN NO EVENT WILL THE STATUTORY PERIOD FOR RESPONSE EXPIRE LATER THAN SIX MONTHS FROM THE DATE OF THIS FINAL ACTION.
